

Learning Outcomes:

A. Knowledge and Understanding:

Upon successful completion of an undergraduate Mechatronics Engineering Program, graduates should be able to:

- A1.** Demonstrate knowledge and understanding of the fundamental accounting concept, principles, and techniques
- A2.** Understanding how to record, summarize financial and non-financial information and prepare financial reports.

B. Cognitive/ Intellectual Skills:

Upon successful completion of an undergraduate Mechatronics Engineering program, graduates should be able to:

- B1.** Critically analyze and evaluate financial information to enable effective problem`s solving and decision making.
- B2.** Interpret financial reports to users.

C. Practical and Professional Skills:

Upon successful completion of an undergraduate Mechatronics Engineering program, graduates should be able to:

- C1.** Prepare financial reports complying with accounting principles and standards.
- C2.** Demonstrate ethical issues related to accounting profession.

D. General and Transferable Skills:

Upon successful completion of an undergraduate Mechatronics Engineering program, graduates should be able to:

- D1.** Work in group and communicate effectively in a written context and orally with related parties.
- D2.** Use information technology appropriately.
